

Keep it crafty!

Looking for a new creative challenge? Try iris folding! Here's our guide to get you started but there are plenty more resources (and templates) online.

Step 1

Cut your shape out of card. You can use the template we've provided!

Step 2
Stick down strips of coloured paper following the template in number order - this side will look a bit messy!

Step 3
Turn over to reveal your finished iris!
